Flat Top Sheep Company owns some sections of land on trek route mapped below in Friedman and Trail creeks. Land is in Access Yes! program but hikers should contact for camping permission if needed. (Our camps 4, 5, and 6 on private land were all Lava Lake property.)

Flat Top information is easily found on Internet because the Peaveys helped found Trailing of the Sheep Festival in Ketchum, Idaho and Diane Peavey is a well-known local author. However Flat Top does not have a website per se. Phone number above is from a publicly listed directory of ranches and goes directly to voicemail for Diane Peavey. Mention planned hike dates and request to camp on Flat Top land, leave name and number.
